INTRODUCTION

The Revenue Administration Division of the Comptroller of Maryland is responsible for collecting the motor fuel tax and motor carrier tax, and the Field Enforcement Division is responsible for regulation and enforcement of the State's motor fuel and motor carrier tax laws.

This annual report provides data and statistics about the tax collection function of the Revenue Administration Division and the regulatory function of the Field Enforcement Division. All information in this report, including but not limited to revenue, permits, and other regulatory activities are for fiscal year 2011: July 1, 2010 through June 30, 2011.

Taxes

The Maryland Motor Fuel Tax is imposed on each gallon of fuel at the following rates:

- 7 cents for each gallon of aviation gasoline;
- 23.5 cents for each gallon of gasoline other than aviation gasoline;
- 24.25 cents for each gallon of special fuel other than clean-burning fuel or turbine fuel;
- 7 cents for each gallon of turbine fuel; and
- 23.5 cents for each gasoline-equivalent gallon of clean-burning fuel except electricity.

In general, after paying refunds, administrative costs of the Comptroller and a certain percentage to the Chesapeake Bay 2010 Trust Fund, motor fuel taxes are distributed to the Gasoline and Motor Vehicle Revenue Account of the Transportation Trust Fund. Further details are in this report about motor fuel tax revenue distribution.

The Maryland Motor Carrier Tax is imposed at the same rate as the motor fuel tax rate for each type of motor fuel used. It is a fuel use tax on motor carriers who travel on Maryland highways. Motor carrier tax revenue and fees collected under Title 9 of the Tax-General Article are distributed to the Gasoline and Motor Vehicle Revenue Account of the Transportation Trust Fund.

Revenue

Total gross revenue from motor fuel tax and motor carrier taxes, motor carrier temporary permit fees, and other revenue for fiscal year 2011 was \$746,457,099. Compared to fiscal year 2010, fiscal year 2011 tax revenues indicate the following changes: 0.5% increase in gasoline taxes; a 0.5% decrease in special fuel taxes; a 29.7% decrease in aviation fuel taxes; and a 7.4% increase in motor carrier taxes for Maryland-based commercial vehicles; a 59.0% decrease in motor carrier taxes collected for commercial vehicles based in other jurisdictions, and a 53.6% increase in motor carrier

temporary permit fees. There was an overall decrease of 0.05% in gross motor fuel tax and motor carrier tax revenues.

There are no fees for motor fuel licenses or registrations, or for IFTA licenses.

Motor Fuel and Motor Carrier Legislation

The Maryland General Assembly passed 2 legislative bills during the 2011 session related to motor fuel laws, and one bill related to the distribution of motor fuel tax revenue. These bills are listed with the corresponding chapter number. Further information about legislation is available at <http://mlis.state.md.us>, the Maryland General Assembly's website.

2011 Legislative Session

STATEWIDE:

Senate Bill 101 (Chapter 25) Business Regulation – Motor Fuel Advertising Signs - Requirements

This bill removes the requirement that a retail service station dealer must post on a sign the lowest price for mid-grade gasoline, and also allows the dealer to post the lowest price for diesel or other motor fuel products sold on the premises. EFFECTIVE OCTOBER 1, 2011

Senate Bill 145 (Chapter 31) Motor Fuel Tax – Personal Liability – Limited Liability Companies, and Limited Liability Partnerships

This bill allows the Comptroller to impose personal liability for motor fuel taxes, including interest and penalties, on any person who exercises direct control over fiscal management of a limited liability company or limited liability partnership. Currently, the Comptroller may impose personal liability for motor fuel taxes on corporations. EFFECTIVE OCTOBER 1, 2011

House Bill 72 (Chapter 397) Budget Reconciliation and Financing Act of 2011

This bill provides for the distribution of motor fuel tax revenue as follows: after deductions for refunds and administrative costs, for each fiscal year beginning on or before July 1, 2015, the 2.3% of motor fuel tax revenue allocated to the Chesapeake Bay 2010 Trust Fund shall be distributed to the General Fund as follows: \$5,000,000 for each fiscal year beginning on or before July 1, 2014; \$4,624,687 for the fiscal year beginning July 1, 2015, and the balance to the Chesapeake Bay 2010 Trust Fund.

After the 2.3% distribution as stated above, the balance of the motor fuel tax revenue is distributed to the

Gasoline and Motor Vehicle Revenue Account of the Transportation Trust Fund. EFFECTIVE JULY 1, 2011

Taxation and Regulation

MOTOR FUEL TAX

The Maryland motor fuel tax is an excise tax on motor fuel purchased for the purpose of propelling a motor vehicle or aircraft. Motor fuel is defined as gasoline or special fuel. Gasoline is a product used as fuel in a spark ignited internal combustion engine. The Comptroller may designate a product as gasoline, such as ethanol.

Special fuel is a product usable as fuel in an internal combustion engine, such as diesel fuel, and it also includes clean-burning fuel used for motor vehicle propulsion, such as natural gas, hydrogen, or a fuel that contains at least 85% ethanol.

Aviation fuel is defined as aviation gasoline, or turbine fuel (jet fuel).

The definition of motor fuel is important as it determines the motor fuel tax rate, what type of license is required, and whether or not an exemption certificate may be issued.

Other than the exemptions listed in § 9-303 and § 9-304 of the Tax-General Article, a tax is imposed on motor fuel. The rules governing when the motor fuel tax is imposed are different for gasoline and special fuel. Gasoline is subject to the motor fuel tax, unless a nontaxable use can be claimed for a refund under the particular exceptions in Tax-General Article § 13-901 related to certain public, governmental, and commercial purposes. In contrast, special fuel may not be subject to tax if the purchaser has an exemption certificate. Exemption certificates are not issued for gasoline.

Pursuant to Tax-General Article, § 9-314(a), the motor fuel tax on gasoline is paid by either: (1) the licensed Class B dealer who first receives gasoline imported into Maryland; (2) any other dealer who uses the gasoline, or first sells the gasoline in Maryland to a buyer other than a licensed dealer authorized to acquire gasoline without paying the motor fuel tax; or (3) any other person who acquires gasoline on which the motor fuel tax has not been paid. Gasoline is essentially taxed on first sale, or import.

Special fuel, which was not separately defined until 1988, is subject to the motor fuel tax when a special fuel seller delivers the fuel into a tank from which a motor vehicle can be fueled unless the person who uses or resells the special fuel has an exemption certificate. The tax is imposed when a special fuel user operates a motor vehicle on a public highway using special fuel; or when a person acquires special fuel without an exemption certificate, or when the motor fuel tax has not been paid.

The motor fuel tax on turbine fuel is imposed on the turbine fuel seller who delivers turbine fuel into the fuel supply tank of a turbine-powered aircraft, or any other person who acquires turbine fuel not tax-paid and without an exemption certificate.

There is an on-line service called "Motor Fuel License Inquiry" and "Special Fuel Exemption Inquiry" on the Comptroller's website that can be used to determine whether a business has a motor fuel license or a seller or user of special fuel has an exemption certificate.

Motor fuel that is exported or sold for exportation from Maryland is not subject to the motor fuel tax.

Discounts or Cost of Collection Allowances

Under Tax-General Article, § 9-308, a licensed gasoline dealer, special fuel seller, special fuel user, or turbine fuel seller shall file monthly tax returns and pay the motor fuel tax.

A licensed dealer or licensed special fuel seller must deduct as a discount 0.5% of the 1st 10 cents of the motor fuel tax on each gallon of motor fuel. The discount compensates the licensed dealer and licensed special fuel seller for expenses incurred in keeping records, collecting and paying the tax, and preparing reports. Discounts do not apply to aviation gasoline. This discount must be allocated and passed-on to subsequent purchasers as provided in Tax-General Article, § 9-315(b)(2).

Exemption Certificates

A holder of an exemption certificate may acquire in bulk special fuel or turbine fuel without paying the motor fuel tax from a licensed special fuel seller or turbine fuel seller. Sellers of kerosene and propane at retail may obtain exemption certificates if this is the only fuel sold, the fuel is sold for a nontaxable use, all other special fuels are purchased tax-paid from the supplier, or the seller is a licensed special fuel seller. Regulations related to exemption certificates are found in the Code of Maryland Regulations (COMAR) 03.03.01.16.

MOTOR CARRIER TAX

Tax-General Article, § 9-204 provides that the rate of the motor carrier tax for each gallon used by a commercial motor vehicle on a highway is the motor fuel tax rate for the type of motor fuel used for each gallon. Exceptions to what constitutes a "commercial motor vehicle" are found in Tax-General Article, § 9-201(b).

International Fuel Tax Agreement (“IFTA”)

Pursuant to the authority granted by Tax-Gen. § 9-205, Maryland was approved in 1995 as a member jurisdiction of the International Fuel Tax Agreement (“IFTA”). Maryland’s IFTA membership became effective January 1, 1996, and the State currently continues to be a member, which requires compliance with the IFTA Articles of Agreement, IFTA Procedures Manual, and IFTA Audit Manual.

The IFTA Agreement applies to the fuel use taxation, registration, and reporting requirements of motor carriers. However, various provisions of the IFTA Agreement permit Maryland as a base jurisdiction to determine the rules and procedures according to Maryland law. Therefore, the motor carrier tax statute found in Tax-General Article, Title 9, Subtitle 2 must be considered in conjunction with the IFTA Agreement.

Three concepts are fundamental to IFTA: (1) base jurisdiction; (2) state sovereignty; and (3) uniformity.

(1) One license and one base jurisdiction is a core principle of IFTA. Maryland as an IFTA member means that it is a base jurisdiction for motor carriers with a vehicle registration in the State. The base jurisdiction concept allows a licensee to report and pay motor carrier taxes to Maryland for distribution to other member jurisdictions in which the licensee traveled and incurred motor fuel use tax liability.

(2) State sovereignty allows each member jurisdiction to retain its authority to impose and administer the motor carrier tax as it determines. By entering into IFTA, Maryland has not relinquished any substantive tax authority.

(3) Uniform IFTA rules and procedures facilitate the collection and disbursement of multistate fuel taxes, promoting interstate travel and commerce.

Under IFTA, the motor carrier tax and exemptions from tax are determined by the laws of the base jurisdiction. In Maryland, there are no exempt miles for the motor carrier tax; however, the tax is not imposed on commercial motor vehicles which are leased from another motor carrier who is responsible for the payment of the motor carrier tax, or those who operate a motor carrier under a trip permit.

The calculation used to compute the amount of motor fuel use in Maryland involves two computations: (1) average fleet miles for each gallon; and (2) total miles the motor carrier’s fleet travels on Maryland highways. To compute the average fleet miles for each gallon, a fraction is used, the numerator of which is the total miles that the motor carrier’s entire fleet travels in all states; and the denominator of which is the total gallons of motor fuel used. This fraction is then divided into the total miles the motor carrier’s fleet travels on Maryland highways.

The following is an example of how to calculate the motor carrier tax:

- (1) Total miles in all states: 1,000
-
- Total gallons of motor fuel used: 50
- = 20 Average Fleet MPG
- (2) Total miles traveled in Maryland: 500
Calculate Maryland taxable fuel use:
 $500 \div 20 = 25$ Maryland taxable gallons

If the motor fuel used is gasoline, the 25 taxable fuel use gallons are taxed at a rate of 23.5 cents for each gallon, or \$5.88. The motor carrier tax in the amount of \$ 5.88 on the 25 gallons can be reduced by a credit for tax-paid gallons purchased in Maryland.

Credits & Refunds

An IFTA licensee may receive credit or a refund for tax-paid purchases of fuel used outside the jurisdiction where the fuel was purchased. Tax-paid purchases to other member jurisdictions can be reported as credits on the licensee’s IFTA Quarterly Fuel Use Tax Return. Refunds will be made only after all tax liabilities, including audit assessments, have been satisfied to all member jurisdictions.
